Conclusion

LTT1 provided an **immersive, hands-on experience** in XR technologies and their educational applications. Participants gained practical skills in **Trimble Connect**, evaluated the **online course**, and explored innovative approaches to integrating **XR into learning environments**.

The combination of structured training, hands-on activities, and networking opportunities ensured that all attendees left with a clearer understanding of how to apply these technologies in their own educational settings.

The next steps include refining the online course based on the feedback gathered and continuing preparations for future training sessions.
